SIR MACFARLANE BURNET, O.M., F.R.S.

13th November, 1958

Dear Josh,

I have talked to Lois Larkin about your offer and she is very keen to go if it is at all possible. I shall miss her considerably but I hope she will come back eventually.

I am off immediately on a short trip to Geneva so I will do no more than just indicate that I am in full accord with her decision. I shall probably leave it to Gus and Lois to look into the ways and means of getting her to America and they will contact you when help at your end is needed.

We were all delighted to hear about the Nobel award and are basking in a very small fraction of reflected glory.

With kind regards,

Yours sincerely,

Mac Burnet
